

# HOW TO PLAY THE GAMES

# How to play Iowa Lottery games

•To play Cash-4-Life, pick four numbers between 00 and 99 (in set A) for your chance at the grand prize of \$1,000 a week for life.

Or let the computer pick them for you by requesting an Easy Pick.

•The computer then picks 14 more sets of four numbers (sets B - O).

•You can play Cash-4-Life seven days a week.

•To win Cash-4-Life cash prizes, match all four numbers in a set to win prizes of:

**\$1,000 a week for life\*** (in set A);

**\$100,000** (in sets B or C);

**\$50,000** (in sets D, E, F or G);

**\$25,000** (in sets H, I, J, K, L, M, N or O)

•When you match three numbers in any set, you win \$20. Or, match just two numbers in any set and you win \$1.

•You can win up to 15 times on the same ticket.

•Odds of winning a prize on a \$1 ticket are better than 1 in 10.

•You can win more than once on a ticket.

•Play until 7:59 p.m. before the drawing.

\*In some cases, prizes may become pari-mutuel. Ten year minimum payout guaranteed for the top prize.

•Plays are \$1 each.

Drawings are held Monday - Saturday.

•To play Iowa's \$100,000 Cash Game, pick your

five numbers out of 35, or let the computer pick the numbers for you by asking for an Easy Pick.

•You can play your numbers for up to four weeks in a row by marking the multi-draw box at the bottom of the playslip.

•Odds are rounded to the nearest whole number.

Note: The same ticket may have winning sets of numbers in more than one tier and have more than one winning set within any of the lower three tiers. In some cases, prizes may become pari-mutuel. Ten year minimum payout guaranteed for the top prize.

•Drawings are held daily, at about 6:28 p.m.

•Balls numbered from 1 to 35 are placed in a machine. Five numbers are then drawn at random by the machine.

•You win \$100,000 by matching all five numbers in any order. You can also win by matching four, three or just 2 numbers.

•All prizes, except the \$100,000 prize, may be claimed at any Iowa Lottery retailer 30 minutes after the drawing.

•Overall odds of winning are 1 in 7.2.

•Plays cost from 50-cents to \$5. Drawings are seven days a week.

•To play Pick 3, choose

a three-digit number from 000 to 999.

•You may select up to five tickets by choosing

sets of numbers in additional

panels on the playslip (A - E).

•If you like, you can let the computer randomly pick your numbers for you.

•Select the play amount: 50-cents, or \$1 including sales tax. If you would like to play \$2, \$3, \$4 or \$5, ask the clerk for assistance.

•Select the play type:

cannot make a 50-cent straight/box play.

•You may play your ticket(s) for more than one drawing. Mark the appropriate multi-draw box for 2, 3, 4, 5, 6 or 7 consecutive drawings. If you would like to play your numbers for more than seven drawings (you can play up to 28), ask the clerk for assistance.

•"6-way" is a play with three different digits, for example 1-2-3 or 5-7-9. "3-way" refers to plays with two digits the same, for example 1-2-2 or 5-5-7.

•Iowa's Pick 3 numbers are the same as the evening Illinois Pick 3 numbers. Winners will be determined by the Illinois Pick 3 Daily Game numbers drawn on WGN-TV (the night drawing only) at approximately 9:20 p.m.

# How to claim a prize!

## •Iowa's Powerball and Cash-4-

**Life:** Tickets are valid for one year from the date of the drawing. Prizes up to and including \$600 may be claimed at any Iowa's Powerball retailer. Claim larger prizes at any Iowa Lottery regional office. Jackpot and \$1,000 a week for life prizes must be claimed at the Lottery's Des Moines office.

## •\$100,000 Cash Game and Iowa's Pick 3:

Tickets are valid for 90 days from the date of the drawing. Prizes up to and including \$600 may be claimed at any lotto retailer. Larger prizes can be claimed at any Iowa Lottery regional office.

**•To claim a prize by mail:** See your retailer for a claim form and send it, along with your signed ticket, to: Iowa Lottery, P.O. Box 10474, Des Moines, IA 50306-9996. Registered mail is strongly suggested.

Players are responsible for checking the accuracy of tickets before leaving the store. Players are responsible for determining whether a ticket is a winner. If you believe you have won, and the terminal rejects, or a retailer disputes the validity of your prize claim, you may submit your claim directly to the Iowa Lottery for review. Iowa law prohibits the sale of lottery tickets to individuals under 21 years of age.

## How to play

- Plays cost \$1 each. Drawings are held on Wednesdays and Saturdays.
- To play Iowa's Powerball, just select five of 49

numbers, and then pick your Powerball - one number out of 42. Your Powerball can be the same as one of the other numbers you've selected.

• You can pick your own numbers, using a playslip, or let the computer pick them for you by asking for an Easy Pick.

• Choose the jackpot payment you prefer, either one lump sum of cash (may be equal to approximately one-half the advertised jackpot amount) or 25 annual payments by marking the appropriate box on your playslip. Or tell your clerk.

• Avoid the lines at high-jackpot times by playing for more than one drawing in a row. Just mark the multi-draw on your playslip. Select the number of consecutive plays you'd like to make: 2, 3, 4, 5 or 10 consecutive drawings.

• Play Powerball until 7:59 p.m. before the drawing.

- Each week on Wednesday and Saturday, five white balls with numbers from 1 to 49 are drawn from one machine. Then one red ball - the Powerball - with a number from 1 to 42 is drawn from another machine.
- You win the jackpot when you match the five numbers in any order and the Powerball.

The advertised jackpot is based on prize payment as an annuity. If you do nothing or select "annuity", you will collect your jackpot prize in equal payments over the next 25 years. Moreover, if you select the "annuity" option and the cost to purchase the annuity is less than \$250,000, the Lottery may elect to pay that prize as a "cash" option prize. If you select the "cash" option, the prize will be a single cash payment equal to the amount available to the Lottery for the jackpot prize pool. The cash option prize is estimated to be approximately one half of the estimated annuitized jackpot (the advertised jackpot paid over 25 years), depending on current interest rates.

Overall odds of winning are 1:36.76.
